2005

T Hotel in Cagliari is a 4 Star Superior Business Hotel situated in a large square in the city center. **The project by Studio Marco Piva was developed around 3 natural element: water, stone and light, which are interpreted so as to convey an “archaic sense” of wellbeing.**

The interior design concept have been inspired by the neighboring Teatro Lirico and is reminiscent of theatrical and musical themes, through their lighting effects and the use of color, materials and finishes.

A multi-functional and multi-sensory project designed to provide **perfect balance between work and pleasure, for a new standard in urban hospitality.**
