The interior spaces of the Excelsior Gallia Hotel are characterized by a magnificent yet at the same time fluid atmosphere. Each area is characterized by a clean and linear mood, designed with very specific features. The interiors are reminiscent of the timeless elegance and style of the Art Deco period, while the lighting dominates the spaces throughout the building, creating an interplay of natural and artificial light.

**The final aim was to recreate a multitasking suggestion from a sensory perspective, for a synaesthetic project that includes and perfectly mixes culture, history, fashion and design.**
