A few steps away from the city's historical center, the property already owned by the investor has been converted from offices into residences.

The property consists of 3 different buildings located in the same lot, connected by green-paths and wide common areas. Studio Marco Piva has been appointed to fully redesign the internal distribution, for a total of 185 apartments of different typologies.

The apartments have been studied with different sizes, declined in three major trends to identify different lifestyles, with the choice of the best contemporary "Made in Italy" products and innovative technical solutions, combining aesthetic and functional qualities.
